## Costs and Initial Set-Up

The unique feature of the bookconfirm system is the lack of fees. That's right, it costs nothing to implement or maintain. Bookconfirm simply takes a small commission for each booking made:

- Commission for a sale through the bookconfirm homepage or affiliated website is set to a standard of 10%
- If a total booking system is provided from bookconfirm, a 5% commission for sales through your outlet is charged and you have the ability to sell other bookconfirm products for a 5% commission

Once you have completed a simple form we do all the work for you!

- We build your products in our system
- We can maintain availability and prices or provide you with the tools to update in your own time
- If a full booking solution is required we create the booking portal with art work to match your website, all you need to do is put up a "Book Now" link.

## Payment & Reporting

### Payment:

Income from the sale of products is processed and deposited automatically into an account held in trust at the St. George Bank. Funds are paid monthly for bookings fulfilled during that month. This enables us to handle any refund requests which also saves you time and money!

### Reporting:

A confirmation email containing a booking confirmation number is automatically sent to the customer and you when a booking is made. Weekly, fortnightly or monthly summary of sales can be delivered to you via email. Passenger manifests for tours or occupancy lists for accommodation are available as recurring reports and can be emailed daily.

Detailed market analysis regarding customer country of origin, lead in time and sales by different web markets can also be delivered upon request.

Let Bookconfirm take the daily grind out of making your business work easier for you!

## Client Testimonials

Since starting to use a bookconfirm 'book now' button on [www.masonstours.com.au](http://www.masonstours.com.au) we have noticed a sharp increase in bookings. Bookings via our website have increased 300% in monetary terms. We have also noticed that the 'book now' button has increased our high value sales dramatically. Payments are made promptly at the end of each month, with a summary included. I am pleased to recommend them.

Cheers,

"I have been using the bookconfirm system for my Tour Company for 4 years. I was amazed at how quick and easy it was for the guys to get my BOOK NOW system up and running. I even got a booking on the first day!! I have gone from replying to emails and wondering if they would book to now earning over \$150,000 per year from my website. The bookconfirm team are delivering to me what the web guys always promised but never delivered, income! And I didn't have to pay a cent to get it up and running. I would recommend this system to anyone."

It has been great having our tours pre-booked online, rather than having people just booking on the day. This has meant more bookings for us as people now take control and are able to plan a 'trip schedule' of their own and fit in all the tours they want.

The main thing for me has been the customer service. It is not just a software system. It is supported by real people who care - with fast responses and open to suggestions for improving things.
